

**Our Mission**

To partner with you to provide *in vivo* pharmacology study support to increase the value of your project

**Our Advantage**

Drug development expertise to inform optimal study designs and flexibility to customize models to meet your unique project needs

**Our Team**

Highly qualified pharmacologists working in state-of-the-art facilities with extensive experience conducting specialized studies

**Safety Pharmacology**

Blood Pressure & QTc  
Left Ventricular Function  
Activity, Temp, Respiration  
Renal Biomarkers & Function  
Chronic Infusion Studies  
Clinical Observations  
Clinical Chemistry  
Hematology  
Gastrointestinal

**Disease Pharmacology**

Hypertension	Nephropathy
Heart Failure	Fibrosis
Metabolic Disease	Gastrointestinal

***Highly Competitive Pricing***

***Rapid Study Completion***

**Infusion Pharmacology**

Continuous Infusion  
PK/PD/Biomarker  
Blood Pressure  
Enterohepatic  
Biliary Excretion  
Renal Clearance
